## PRINCIPAL'S STATEMENT

### **DHRUBA CHAKRABORTTY**

Principal  
BN College  
Dhubri, Assam

Bholanath College, Dhubri has the privilege of having a healthy, harmonious ambience and rich values which have played pivotal role in shaping the future of innumerable students. Our mission is to transform students into rational thinkers, competent workers, law abiding citizens and spiritually enlightened individuals. This is my firm belief that the rich values and traditions imbibed here would carry you to great heights.

These could be possible with the hard-work done by College Staff and students under the guidance of visionary management. With proud legacy of 74 years, the College has excelled in various fields. Many students have registered their presence in the merit list of Gauhati University and other reputed institutions.

**“There is no limit to the power of the Human Mind.  
The more concentrated it is,  
the more power is brought to bear on one point.”**

**- Swami Vivekananda**

Students graduating from the College have carved a niche for themselves in various fields at national and international levels.

From the academic session 2019-20, the College has started the Choice Based Credit System (CBCS) in TDC courses as per guideline of Gauhati University. We recognize skill development as an essential part of education.

Keeping that in mind the College has already introduced B. Voc. Course in IT with financial support from the Govt. of Assam and a number of Curriculum Enrichment Courses.

The green, secured campus with Wi-Fi connectivity, solar power plant, modern digital classrooms and laboratories, fully automated digital library, computer center, indoor and outdoor game facilities etc. provide a fascinating learning atmosphere.

We try our best to keep in touch with all the stakeholders for the all-round development of the college. We believe that the hard work, commitment, zeal and determination are the most important tools that show the path of success.

## Higher Education in The Light of National Education Policy (NEP), 2020

**Dr. Piyush Kumar Mishra**

Associate Professor & Head  
Department of Botany  
B.N. College, Dhubri

The National Policy on Education (NPE) was formed in 1986 and modified in 1992. Since then, several changes have taken place suggesting revision of the policy from time to time and finally after thirty-four years NPE, 1986 was replaced by NEP, 2020. Built on the fundamental pillars of Access, Equity, Quality, Affordability and Accountability, NEP, 2020 is aligned to the 2030 agenda for sustainable development and aims to transform India into a vibrant knowledge society and global knowledge superpower by making both School and College education more holistic, flexible, multidisciplinary, suited to 21st century needs and aimed at bringing out the unique capabilities of each student. The present article is being written to highlight briefly on Higher Education in the context of NEP, 2020 as follows:

### **Increase GER to 50% by 2035**

NEP 2020 aims to increase the Gross Enrolment Ratio (GER) in higher education including vocational education from 26.3% (2018) to 50% by 2035. 3.5 crore new seats will be added to Higher education institutions.

### **Holistic Multidisciplinary Education**

The policy envisages multidisciplinary, holistic, under graduate education with flexible curricula, creative combinations of subjects, integration of vocational education and multiple entry and exit points with appropriate certification. UG education can be of 3 or 4 years with multiple exit options and appropriate certification within this period. For instance, Certificate after 1-year, Advanced Diploma after 2-years, Bachelor's Degree after 3-years and Bachelor's with Research after 4-years. An Academic Bank of Credit is to be established for digitally storing academic credits earned from different HEI's so that these can be transferred and counted towards final degree earned. Moreover, Multidisciplinary Education and Research Universities (MERU's), at par IIT's, IIM's to be set up as models of best multidisciplinary education of global standards in the country. The National Research Foundation will be created as an apex body for fostering a strong research culture and building research capacity across higher education.

### **Regulation**

Higher Education Commission of India (HECI) will be set up as a single umbrella body for the entire higher education, excluding medical and legal education. HECI will have four independent verticals namely 1) National Higher Education Regulatory Council (NHERC) for regulation, 2) General Education Council (GEC) for standard setting, 3) Higher Education Grants Council (HEGC) for funding and 4) National Accreditation Council (NAC) for accreditation. HECI will function through faceless intervention through technology and will have power to penalize HEI's not conforming to norms and standards. Public and private Higher Education Institutions will be governed by the same set of norms of regulation, accreditation and academic standards.

### **Rationalized Institutional Architecture**

HEI's will be transformed into large, well resourced, vibrant multidisciplinary institutions providing high quality teaching, research and community engagement. The definition of university will allow a spectrum of institutions that range from Research-intensive Universities to teaching intensive Universities and Autonomous degree grading Colleges.

Affiliation of colleges is to be phased out in 15 years and a stage-wise mechanism is to be established for granting graded autonomy to colleges. Over a period of time, it is envisaged that every college would develop into either an Autonomous degree granting college or a Constituent College of a University.

### **Motivated, Energized and capable Faculty**

NEP makes recommendations for motivating energizing and building capacity of faculty through clearly defined, independent, transparent recruitment, freedom to design curricula/pedagogy, incentivizing excellence, movement into institutional leadership. Faculty not delivering on basic norms will be held accountable.

### **Teacher Education**

A new and comprehensive National Curriculum Framework for Teacher Education, NCFTE 2021 will be formulated by the NCTE in consultation with NCERT. By 2030, the minimum degree qualification for teaching will be a 4-years integrated B.Ed. Degree. Stringent action will be taken against substandard stand-alone Teacher Education Institutions (TEI's).

### **Mentoring Mission**

A National Mission for Mentoring will be established with a large pool of outstanding senior/retired faculty including those with the ability to teach in Indian languages, who would be willing to provide short and long-term mentoring/Professional support to university/college teachers.

### **Financial support for students**

Efforts will be made to incentivize the meritorious of students belonging SC, ST, OBC etc. The National Scholarship Portal will be expanded to support, foster and track the progress of students receiving scholarships. Private HEI's will be encouraged to offer larger numbers of free ships and scholarships to their students.

### **Open and Distance Learning**

Open and Distance Learning system will be expanded to play a significant role in increasing GER. Measures such as online courses and digital responsibilities, funding for research, improved student services, credit-based recognition of MOOC's etc., will be taken to ensure it is at par with the highest quality in-class programmes.

### **Online Education and Digital Education**

Online education will be promoted keeping in mind the recent rise in epidemics and pandemics in order to ensure preparedness with alternative modes of quality education whenever and wherever traditional and in-person modes of education are not possible. For this purpose, digital infrastructure and capacity building will be created in MHRD

### **Technology in Education**

An autonomous body, the National Educational Technology Forum (NETF) will be created to provide a platform for the free exchange of ideas on the use of technology to enhance learning assessment, planning, administration. Appropriate integration of technology into all levels of education will be done to improve classroom processes, support teacher professional development, enhance educational access for disadvantaged group and streamline educational planning, administration and management.

### **Promotion of Indian Languages**

To ensure the preservation, growth and vibrancy of all Indian languages, NEP recommends setting an Indian Institute of Translation and Interpretation (IITI), National Institute/Institutes for Pali, Persian and Prakrit, strengthening of Sanskrit and all language departments in HEI's and use mother tongue/local language as a medium of instruction in more HEI programmes.

Internationalization of education will be facilitated through both institutional collaborations and student and faculty mobility and allowing entry of top world ranked Universities to open campuses in our country.

## Professional Education

All professional education will be an integral part of the higher education system. Stand-alone technical universities, health science universities, legal and agricultural universities etc. will aim become to multi-disciplinary institutions.

## Adult Education

Policy aims to achieve 100% youth and adult literacy.

## Financing Education

The Centre and the States will work together to increase the public investment in education sector to reach 6% of GDP of the earliest.

(Source: Ministry of Education)

## ORIENTATION PROGRAMME (02/11/2021)

An orientation programme on “Creating dedicated youths in service of the needy, society and the Nation” was organized by B.N. College, Dhubri and Kalpajyoti Foundation jointly on 2nd November, 2021 at the digital classroom of the college. ## WEBINAR ON “EMPOWERING DIVERSITY IN SCIENCE”: (16/02/2022)

The department of Chemistry, B. N. College, Dhubri and Association of Chemistry Teachers (ACT) in collaboration with International Union of Pure and Applied Chemistry (IUPAC), Global Women’s breakfast organized a webinar on “Empowering Diversity in Science” on 16th February, 2022 through Zoom meeting platform from 4 PM to 5:30 PM. The main objective of the programme was to celebrate the accomplishments of women in science and to inspire younger generations to pursue careers in science.

Another important goal was also to establish an active network of both women and men to overcome the barriers for gender equality in science. The programme began with an inaugural speech by Dr. Susmita Sen Gupta, Co-ordinator, IQAC B. N. College, Dhubri. In her inaugural speech, Dr. Sen Gupta has highlighted the importance of gender equality as it is not only a fundamental human right but a necessary foundation for a peaceful, prosperous and sustainable world. Dr. Malabika Borah, Asstt. Professor, B. N. College was the first resource person for the webinar and she discussed the diversities in science specially focusing on the stories of some women scientists who, in spite of their struggles in the context of gender, ethnic minorities and physical disabilities, have succeeded in their own scientific goals. The second resource person was Dr. Mehdi Al Kausor, Asstt. Professor, Science College, Kokrajhar, who enlightened the students about the careers in science stream specially mentioning the several schemes for women. He also narrated the success stories of a few women scientists in the field of Chemistry. Dr. Murshida Karim, Assistant. Professor, Department of Chemistry, B. N. College, Dhubri was the moderator of the webinar.
